
Warrick County School Corporation
2nd Annual
Professional Development Fair

Best Practices for All Learners

Castle High School
July 26th and 27th, 2017

Mission of Professional Development Fair:

To offer research-based professional development to the WCSC staff. Feedback from previous PD sessions and from the Advanced Education Accreditation is that our staff members want/need more PD. In order for our schools and corporation to continue to improve and stay current on best practices, the corporation needs to give employees proper training and encourage professional growth.

Professional Development Committee Members:

- Ashlee Bruggenschmidt, Principal at Sharon Elementary
- Sarah Elaman, Guidance Counselor at Castle High School
- Doug Gresham, Principal at Castle High School
- Kristi Held, Special Education Teacher at WEC, WCTA President
- Charles Held, Special Education Teacher at Sharon Elementary
- Walter Lambert, Director of Secondary Curriculum and Instruction
- Tad Powless, Director of Human Resources
- Jamie Pryor, Principal at Oakdale Elementary
- Abbie Redmon, Principal at Boonville Middle School
- Darlene Short, Teacher at Castle North Middle School
- Tish Wagner, Director of Special Education

Thank You

Thank you to the Warrick County School Corporation and the WCTA for working together for the betterment of our employees. Thank you for being passionate about professional growth and being dedicated to our students. A big thank you to Castle High School for allowing the use of your facility for the PD Fair. We hope that everyone finds the 2nd annual PD Fair beneficial.

Break-Out Session Information:

An Introduction to Universal Design for Learning, Presenter Sarah Darnell

Universal Design for Learning is a set of principles for curriculum development that give all individuals equal opportunities to learn. UDL provides a blueprint for creating instructional goals, methods, materials, and assessments that work for everyone—not a single, one-size-fits-all solution, but rather flexible approaches that can be customized and adjusted for individual needs.

Mathematical Best Practices (1-4), Presenter Nick Flowers, IDOE (*Elementary*)

The National Council of Teachers of Mathematics has identified eight core teaching practices for quality mathematics instruction. This session will break down four of the practices. You will leave ready to implement these practices in your daily math instruction. The four practices are: (1) Establish mathematics goals to focus learning. (2) Implement tasks that promote reasoning and problem solving. (3) Use and connect mathematical representations. (4) Build procedural fluency from conceptual understanding.

"Gotta Move!" Activities for an Engaging Classroom, Presenter Steve Mintner

For 7 years, I worked with hundreds of high schools across the United States and Canada. We found those who were falling behind were learners who needed movement and activity. When you leave this session, you will take with you several activities that can be used at all age levels that were used to see achievement gaps at different school districts shrink by over 20%. Students are having fun, are engaged, and retain information.

Behavior Data Made Easy, Presenter Matt Wagner and Lara Bishop

Tracking behavior can seem like a heavy burden on teachers with all of their other daily demands. This presentation will focus on simple tracking options and resources that will provide a significant amount of information to help drive behavioral responses for our teachers. Websites and online tracking options will be shared that take the burden of charting, graphing, and analyzing off the teacher so more time can be spent teaching. Attendees will walk away with practical resources to start making behavior tracking easier and more meaningful.

Co-Teaching, Presenters Tiffany Williams and Lisa Sharp

Teaching students with special needs in the general education setting has been proven to yield positive results. Many teachers, both general and special education, appreciate the benefits of a co-teaching arrangement, but are intimidated by the challenges that this classroom structure can present. In this session, we will share strategies that we have developed throughout four years as co-teachers at both the elementary and middle school levels. We will present co-teaching classroom models and discuss ways to differentiate instruction while maintaining the highest levels of expectations for all students.

Service, Learning, and *generationOn* Indiana, Presenter Darlene Short

generationOn Indiana is a Lilly Endowment grant-funded program facilitated by the Indiana Association of School Principals and the Indiana Middle Level Education Association. Our mission is to spread knowledge of service-learning and philanthropy education and the free websites (www.generationOn.org and www.learningtogive.org) that are available to teachers. Service-learning and philanthropy education benefit students, schools, and the community. We are dedicated to bringing our resources to schools in Indiana. *generationOn* is a service-learning website, while Learning to Give offers teachers 1700+ teacher-created lesson plans for teachers to link service and philanthropy to existing curriculum. Our goal is to equip teachers with the tools to incorporate service-learning into their school's existing curriculum while still addressing essential standards. *generationOn* and Learning to Give will equip those teachers with additional tools and resources to enhance their students' engagement and enthusiasm for learning while creating real-world application, fostering higher-order thinking skills, and producing future leaders with a heart for philanthropy.
