Dear Parents/Guardians:

The COVID-19 outbreak is an unprecedented situation that I am sure is bringing about many worries on multiple fronts for our families. Students, staff, and parents are all trying to navigate this situation as best as possible. Please know that you do not have to navigate this alone. If you have questions about your child's IEP, services, or other aspects of special education, I encourage you to contact your child's Special Education teacher. Please know that we are working hard to maintain communication and committed to working with you to the greatest extent possible during the current situation.

Additionally, if you are in need of resources to help support your child's specific needs, please do not hesitate to reach out as well. We are working together to get resources and strategies to parents to help support students while at home. The more we know about what would be helpful for you, the better the resources we can provide.

If you have access to the internet, please visit:

<https://sites.google.com/warrick.k12.in.us/specializedsupp/home>

This webpage has been created to offer some specialized support strategies for our families. We will continue to update the page during the remainder of our closure.

Despite the current situation, we want you to know that support and assistance are only a phone call or email away. Please do not hesitate to reach out. We are in this together!

Sincerely,

Leticia Wagner
Director of Special Education
